

AuxQ MobileLab Robotic

Mobile system for operating and interacting with any analysis equipment and flexible transport of laboratory samples

KEY FEATURES

- Collaboration with MLA on support measures
- Autonomous processing with lower throughput
- Flexible orientation in the laboratory
- Large portfolio of analytical instruments
- Processing of clinical chemistry, coagulation, haematology and immunohematology
- Handling of reagents and control tests

ADVANTAGES

- Working with MLA in the same work area
- No structural adjustments required in the laboratory
- Use of any number of analyzer
- Routing of backup devices
- Detection of device errors and configurable response
- Adaptation to laboratory-specific routing rules possible

Your laboratory. Our solution. Discover it now.
